TECHNOLOGY TO ENJOY

Sitting in her studio, the SEAT designer's thoughts turn to family, to days out in the country and holidays in the sun. To the school run and taking the kids to dance class and football practice. To supermarkets with crowded car parks and furniture stores stacked with beds and wardrobes and chests of draws, waiting to be transported home. Some might call it daydreaming.

We call it: **TECHNOLOGY TO ENJOY**

MADE FOR LIFE

Big, clever, loveable and incredibly versatile. The multi-award winning, multi-purpose Alhambra is ready for everything.

Inside it's almost infinitely adaptable, and extremely comfy. Outside it's got lines which easily compete with some of its sportier siblings. Eco-conscious performance and nimble handling are backed up by cutting-edge technology and safety features.

The Alhambra. A genuine multi-purpose vehicle, made for enjoying real life.

DECORATIVE EXTERIOR ELEMENTS

When you look at it you'll tell the difference

FAMILY-SIZE PACK

Plenty of space to go around

Three rows of adult size seats make the Alhambra a car for all generations: children, parents and grandparents. But whether you want them all in there at the same time is up to you. After all, you've got 2430 litres of interior space to play with. With the rear seats folded you could slide in a couple of bikes side by side (with front wheels removed), and hit the trails.

But we didn't only create space. We created a space that's a pleasure to be in. The Alhambra's cabin is crafted for comfort as well as functionality. Ergonomic seats, upholstered in leather or cloth, take the strain. While above, the optional panoramic sunroof is around three times larger than standard sunroofs. Big inside. Big outside.
